

USI – The ins and outs

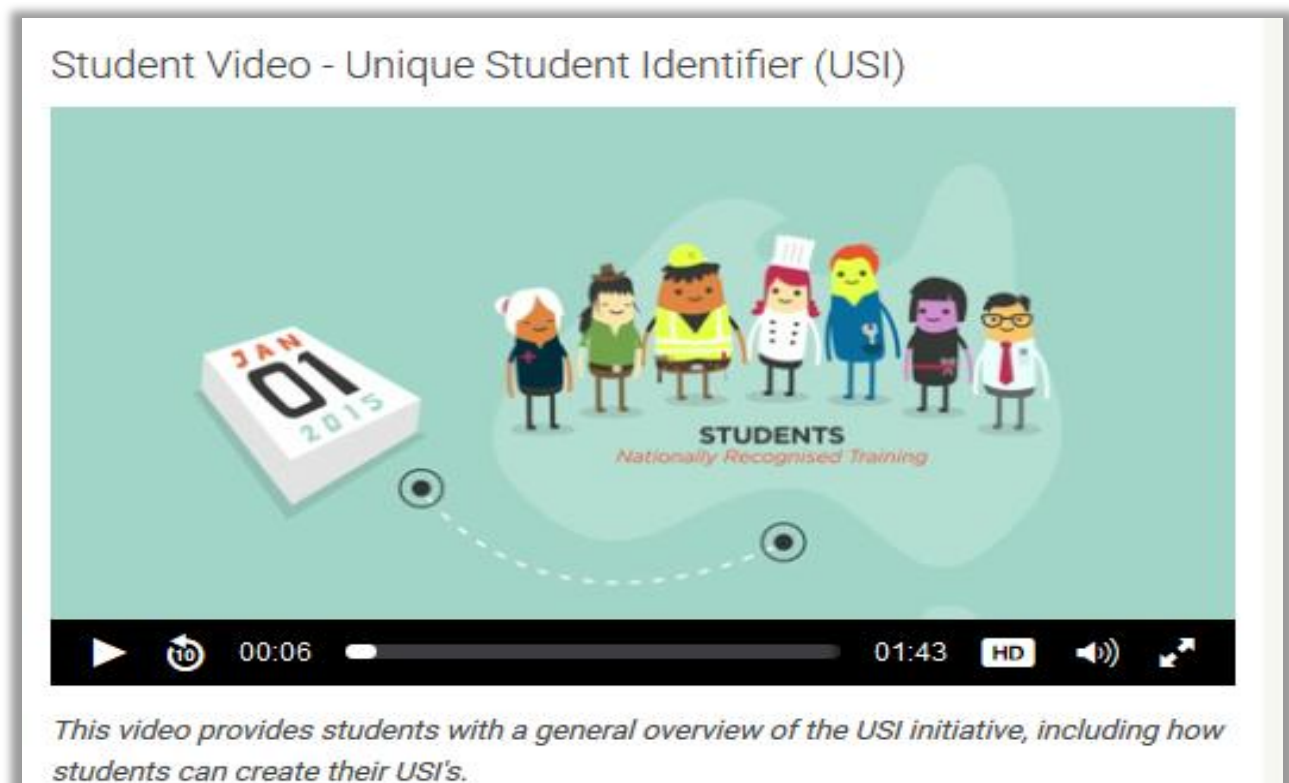

Every student who wants to study a vocational course will need a USI number.

Ask all students to check with their parents the numbers shown on their Medicare card and to record it. The form below will help. They could take a photo of it on their mobile. Tell them to delete the photo once finished this process.

Firstly, go onto JobJump and select the top menu item **My Course**. Lower down on the list of options click on **USI**.

Now watch the video in the centre of the page as shown here.

1. Ask the students to complete the form below. This will allow them to be prepared for your lesson on the USI.
2. Show the **USI Slide Show** provided and work through the steps.
3. Then go onto to the USI website and begin by selecting the first tab option as shown below:

Student USI Support Form

Medicare number 10 digits: _ _ _ _ _ _ _ _ _ _
