

University – Life in a University Unearthed

So you are considering the exciting step of going to University! Well done!

University life is a chance to being truly yourself, being independent, meeting new friends and achieving your first goals towards your future.

Here are two tasks. Discuss the information you read in class.
There is a simple fun challenge to play at the end of these tasks.

Task 1.

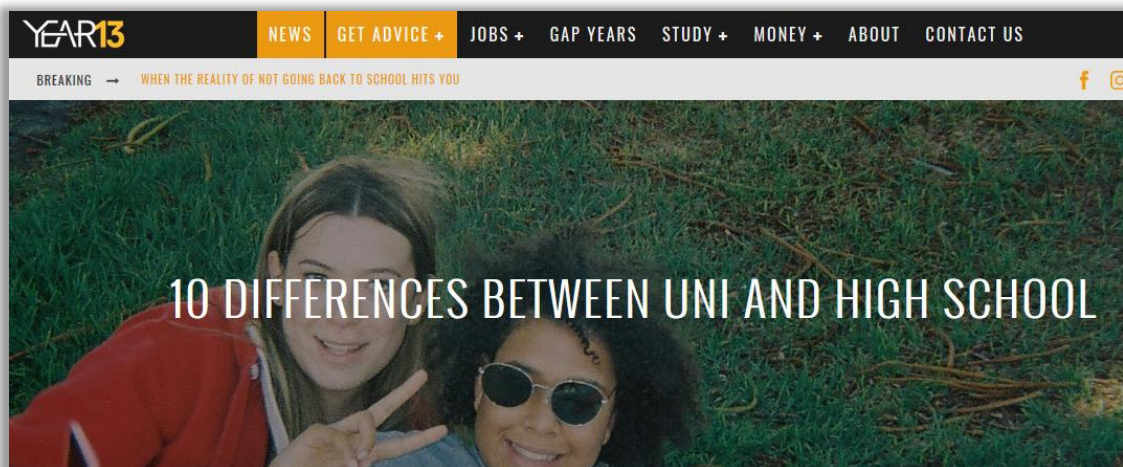

Go to this site in the link below and read the article *An insider's guide to life at uni* from Good Universities.

<https://www.gooduniversitiesguide.com.au/education-blogs/student-life/an-insider-s-guide-to-life-at-uni>

The site Year 13 also has a good summary on how life at University is different to your schools days. Read it here:

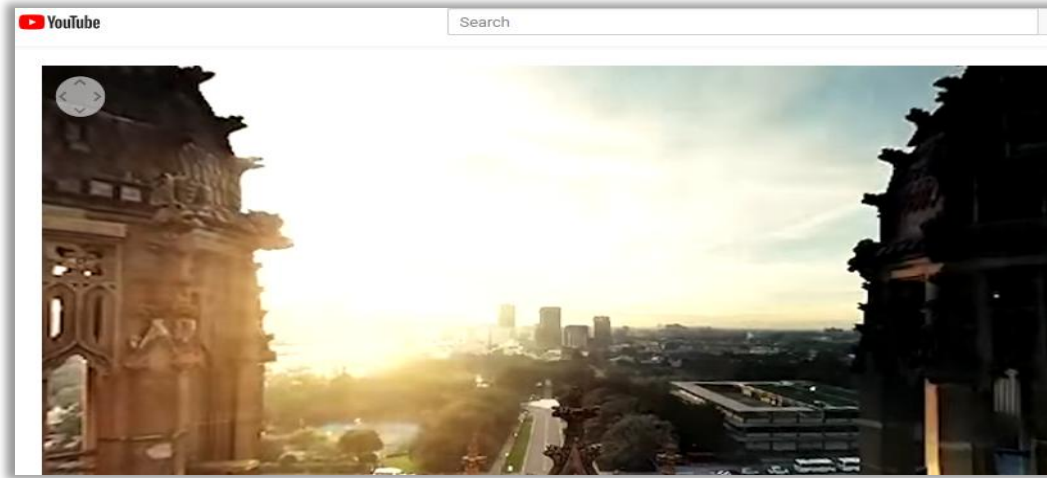

<https://year13.com.au/differences-uni-high-school/>

Task 2.

Click on this link from Sydney University. It allows you to see a 360 degree tour at any spot in the video. Simply click on the screen and drag your mouse/pad to wherever you want to go. It's great fun.

Challenge : Play Career Feud (Just like Family Feud except for Careers!)

Put the following in order of top responses.

We surveyed 100 people and asked them:

“Besides seeing students and teachers, name one thing you notice being in a Uni.”

- Cafeteria or restaurant.
- No bells for class periods.
- Shops
- Library and computers
- Workshops and lecture rooms
- Assignments.
- Parklands and sporting fields
- Clubs to join
- Gymnasium
- No Year Adviser but there is a counsellor you can visit for advice.
- No uniform
